

## Eligibility

### Important Applicant Information:

This application form is only to be completed after Stage 1A has been deemed successful and you have been notified.

Incomplete applications and/or applications received after the closing date will not be considered.

This section of the application form is designed to help you, and us, provide further information on project specifications.

If you have any questions in regards to these eligibility criteria, please contact **urban.programs@act.gov.au**.

### Smart Grant Application Number

**Application Number (this number was issued when Stage 1A Application form was submitted).**

AAP22-230003625

This field is read only.

The identification number or code for this submission.

## Privacy Notice

## Project Details

### Project title:

Dawson St Gardens

Provide a name for your project/program/initiative. Your title should be short but descriptive

### Name of Volunteer Group

Dawson St Gardens volunteers

### Please provide finer specifications or amended details of the project.

In May 2019, a group of twenty, including TCCS staff, planted five Persian Ironwoods in a degraded, largely unused Curtin park as part of Tree Week. Since then Dawson St Gardens volunteer group has transformed this park into a space that invites the community to enjoy, appreciate and care for nature. This enthusiastic group of volunteers achieved this in consultation with local residents, indigenous consultants, ecologists, community groups, local schools and TCCS. The park has gardens of indigenous bush tucker and native plants,

## Adopt-a-Park 2022-23

### Adopt-a-Park Grant 2022-23 1B version 2

Application No. AAP22-230003625 From Dawson St Gardens - DRAFT

a Yarning Circle and rock seating. It is an educational tool for school children, community groups and residents, featuring QR codes on plant signs for information.

We now seek to build on these efforts by utilising the services of a professional Landscape Designer to formalise a detailed landscaping plan, taking into account existing plantings. This plan would detail short and long-term objectives and activities that we as a volunteer group can be guided by, based on what we have already learnt. The landscaping plan will encompass the over-arching themes of urban cooling, bio-diversity, community engagement and education. It would include design of a climate-wise garden of native and non-native plants and trees to educate local gardeners about plantings for our climate. It will continue to increase amenities such as solid shade, school and community use and help support biodiversity in the bush capital.

We would also benefit from social media training to help us attract more volunteers, especially younger people, to takeover longer-term care of the Gardens.

Please consider and look at such things as plant species, quantity and material size, material type proposed, construction method, etc

## Design Details

Please add as an attachment a detailed diagram of the project including specific location and such details as requested in Section 3 above.
